

# ANNOUNCEMENT

## Removing Special Codes from Hongfa Product Part Number & Switching to the New Part Number

**Dear Sir or Madam::**

March 25, 2008

First of all, thank you very much for your great support to us. For your convenience in selecting and continuing to use our products, we herein make an important announcement as below.

1. Since all Hongfa products are RoHS compliant, we'll remove the special codes (551) and (555) from our current ordering type from April 1<sup>st</sup>, 2008. Please place your order according to the newest ordering type. In consideration of the continuity of orders, within a period of time, it is still acceptable for the existing customers to place the orders with the ordering type which originally have the suffixes (551) and (555). In the meantime, we hereby declare that all Hongfa products are RoHS compliant, no matter suffixes (551) and (555) are used or not.

For example:

- Current Hongfa's ordering type with 551 and 555 is HF115F/012-1HS1(551) or HF115F/012-1HS1B(555). Such part numbers are still valid within a period of time for orders from Hongfa's existing customers or projects;
- Newest Hongfa's ordering type without 551 and 555 is HF115F/012-1HS1 or HF115F/012-1HS1B.

2. We started to switch the old ordering type to be new one since 2005 (For example old ordering type is JQX-115F and the new one is HF115F), now we has finished switching to be the head of "HF" as new ordering type. From the date of this announcement, we strongly recommend that you should use the new ordering type for your orders. Please refer to appendix for Comparative list between the old and new ordering type. In consideration of the continuity of orders, within a period of time, the existing customers can still place the order with the old ordering type.

Thanks again for choosing Hongfa products. If you have any question, please feel free to contact us.

Best Regards,

Xiamen Hongfa Electroacoustic Co. Ltd
