

Description

The Cooper PowerStor® Aerogel Capacitor is a unique, ultra-high capacitance device based on a novel type of carbon form, known as carbon aerogel. Aerogel capacitors are similar to Supercapacitors, ultracapacitors and electrochemical double layer capacitor (EDLCs) with the added benefit of low ESR (Equivalent Series Resistance)

The KR series offers a wide range of high capacitance coin cell style products for use in memory & RTC back-up applications. End products include computers, cameras, camcorders, telephones, printers, car stereos, CCTV, set top box and PDP.
